Proposal for Addition of HS code

1. Japan welcomes the progresses made so far on the new Protocol and would also like to congratulate the Secretariat and the participants of the first session of the Committee of Governmental Experts for its significant contributions.
2. Japan wishes to submit the following list of HS codes based on sixth edition updated in 2017, which can be considered for inclusion to the Annexes 1, 2 and 3. Most of the codes were newly added to the newest edition (the sixth edition) of the Harmonised System. The suggestions reflect demands from the industry in Japan of the moment. Japan would like to note that further requests maybe made to add or delete HS codes at later stage to precisely reflect the needs of the industry.
